Medical.

DR. JOHN BULL'S

Compound Cedron Bitters.

Latest and Most Important Biscovery

NINETEENTH CENTURY!

N O MAN'S NAME IS MORE INTIMATELY roansetted with the instory of MATERIA MED-tor of the United States, or more favorably known as a plone-rin Medical Discovery, than that of

John Bull, of Louisville, Kentucky.

Historianicable preparation of SARSAPARILLA has long stood at the head of the various compounds of that variable drug.

HIS COMPOUND OF WILD CHERRY
HAS BECOME A HOUSEHOLD
WORD THROUGHOUT THE
WEST AND SOUTH. HIS
WORM LOZENGERS, IN
LESS THAN A YEAR
AFTER THEIR INTRODUCTION ATTAINED A
REPUTATION AS WIDE
SPREAD AS THE CONTINENT
OF NORTH AMERICA.

But the crowning glory of his life remains to be attained in his discovery, or rather combination, 'or he does not claim to have been the discoverer of these, which is the basis of the Bitlers now offered to the public. That hours belong to the native inshabitants of Central america, to whom its virtues have been known for more than two hundred years. Armed with it the Indian bids defiance to the most deadly malaria, and handles, without fear, the most venomous serponis. It is a belief with them, that while there is breach in the body, the Oddron is potent to corre, no malter what the discase may be.

While Dr. Bulls not prepared to endorse this earrivagain prefension, he is nevertheless satisfied from athoroush examination of the evidence relating to its virtues, the tas a remedy and preventative for all diseases arising from exposure, either to change o weather or climate, or to minemake influences, it stands

WITHOUT A RIVAL!

And justly deserves the reputation it has so long en syed in Central America and the West Indies.

IN DYSPEPSIA

An't it atendant train of symptoms, it acts more like A UHARM than a medicine. The e is nothing in the whole range of Malesia Mult a that can for a moment be ra comparison with in this disease.

A full second of this won-terful plant may be found in the elevant edition of the United States Dispension, pages 1387 and 1388.

A series of experiments in which Dr. Bull has been for years compact, has just been brought to a successful termination, and se is now enabled to disr to the public a combination of CEDRON with other approved tonics, the whole presented in the best quality of copper distilled Bowthon Whisky, which he is confident has no equals in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things by their true value. The safest plan is, for every one to testifo himself the virtues of a new medicine.

GIVE THE

CEDRON BITTERS.

One Trial and You Will Never Use Any Others.

It is not necessary to publish a long list of diseases for which the CEDRON BITTERS are a specific. In all diseases of the

From Washington.

Washington December 22.

The State Department has received a communication from Mr. Mr. John Britton, our Consul at Southampton. Englasel, dated December 1, 1865, stating, that having seen in New York papers an account of the existence of cholers at that place, he desired to say that although there had been a few cases of English cholers, resulting from the too free use of bad fruit and vegetables, there had not been a single case of Asiatic cholera in the town.

The London Times, he thinks, with its usual fertile imagination, was the primary cause of these reports.

Official advices to the State Department show that the war in Chili stall progresses. The Spanish Admiral at Valparaiso had grossly insulted the American Minister, Mr Nelson.

It is true that General Logan declines the Washington December 22.

Nelson.

It is true that General Logan declines the Mexican mission, and that Lewis D. Campbell, of Ohio, has been appointed. The latter accepts the mission.

From New York.

From New York,
New York, December 22.

The Commercial's Washington dispatch says the Southern members of Congress elect held a caucus yesterday and decided to return to their homes, leaving one from each State to represent them before the Joint Committee of Congress.

It was reported in Washington last night that the Secretary of State is notified by the Spanish Minister that one certainly, and possibly two privateers, are being fitted out at New York to prey upon the Spanish commerce under the Chilian flag.

the Spanish commerce under the Chinan flag.

Another dispatch says there are indica-tions that ad calorem duties will be done away with by the present Congress as far as possible, and a specific tartiff enacted.

The Fenian rupture remains unchanged. Both the factions receive about an equal number of letters daily indorsing their

Many of the Circles in the West and elsewhere have concluded to pursue a course of of neutrality until the arrival of President Stephens.

United States Paymaster Robbed Washington, December 22.

A paymaster of the United States army went into a bank in this city to-day with \$15,000, which he laid on the counter and turned about for the purpose of writing a check. His clerk entered at the time and likewise placed on the counter a package of \$10,000, and then engaged in conversation with a friend. While the paymaster and his clerk were thus engaged some party in the crowd stole the \$15,000 package, with which he made his escape unnoticed.

Arrival of Ocean Steamers. New York, December 22.—The steamers Virginia, from Liverpool, and Peruvian, from Liverpool, via Portland and Corsica, from Havana and Nassau, have arrived ere.
